WILLS OF MIFFLIN CO. 1860-1900 Vol II

44-66

This volume of Mifflin County Wills is a continuation of names abstracted from wills found in the Mifflin County Court House. As the title states, the abstracts in this volume cover those wills probated between 1861 and 1900.

The purpose of these listings is to aid those interested in doing research on Mifflin County families. It is not to be taken in any way as a complete listing of those persons who died within the county during the years mentioned above. A rather small portion of Mifflin County citizens had wills. However this source of information is unique in that it shows relationships not found in other listings.

A typical entry in this book contains the name of the person who wrote the will, the date written, the date probated, names of spouse, sons, daughters, grandchildren and others. Sometimes other information may be included if such information may be helpful to locate further data. Land owned in the West or mention of military service are some examples of this kind of extra information.

Please keep in mind while using this book that the names listed are written as they are found in the wills. Therefore, some spellings of names are far removed from modern or "correct" spellings.

I would like to express thanks to Mr. Jerry Purcell for the fine art work that he did on the cover of this book.

Abbreviations used in this book

w. - written
